## Sand In My Eyes by Christine Lemmon

If you are a mother of more than one child, chances are you've considered getting in the car and driving until you've run out of gas, destination not important. Maybe you've fantasized about buying a ticket to anywhere and jetting off alone to get some place offering peace and quiet; I've considered Paris. On the flip side, my children are growing up so quickly and sooner than I realize they will be off to college and out of the house and then for the rest of my life, I really will be alone with plenty of quiet.

### Sand in My Eyes by Christine Lemmon

is about, "A novel framed within a novel, *Sand In My Eyes* is both a story about the tension between motherhood and personal dreams as well as a story about women across generations inspiring one another to let beauty persist despite ugly circumstances." [source](#)

Doesn't it sound good? They had me at "motherhood" and "personal dreams".

The book has received great reviews on both Amazon and Barnes and Noble and I cannot wait to crack it open and enjoy it. [For more, please go to the authors website here.](#)
